

Commercial Facilities & Logistics

The Complete Service Package

At CFL we are able to offer our customers an end to end service.

It could be supplying the product, storing it on-site and despatching at your request.

Short runs, long runs, colour, black and white, large, small and in between, unusual cut outs and shapes, light and heavy weights, uniform or personalised, forms or promotional, balls or embroidered, folded or rolled, sticky or tricky.

Our secure storage facility and a computerised stock control system ensures that stock is kept at an optimum level while you order goods as required from our stock.

You could use CFL to send out small/large mailings or to collate a number of items ready for despatch/storage.

Ranging from seasonal promotions to more specific client related campaigns, the merchandising service we offer handles the complete task.

Data capture could be your need... we have the capabilities to capture from a number of sources and supply the information back to you in a more understandable and useful format.

Data capture and analysis provides our clients with a useful information base on their customers or suppliers.

This information can be used for target mailing to maximise earning potentials.

Are you looking for exciting staff gifts or customer reward schemes?

We are able to supply up to date videos or dvd's (top film titles available) or even produce multiple copies of your own company promotion film. All innovative ideas are possible and all are available.

If it can be thought it can be sought
