There is an Easier Way!

Christmas is coming and the list of things to do is getting longer.

We find Christmas to be one of the busiest times of the year so it's better to begin preparing as soon as possible.

One of the most important, yet time consuming projects are company Christmas cards. It is important to make contact with customers and suppliers but do you wonder whether it's worth the time and effort?

Wonder no more.

We offer a tried and tested system delivering personalised Christmas cards designed to your request with minimal effort from yourself.

Using cards picked from our range or one of your own design and a list of names and addresses to send to, we can handle the entire problem. Signatures can be digitally applied and the cards mailed directly to the recipients. The recipient's names are printed inside for that personal touch with addresses printed on the backs and inserted in window envelopes.

The product can be used in anyway you wish, either in full or any separate parts.

This hassle is taken of your hands allowing you and your staff to concentrate on the essential Christmas business.
