

Commercial Facilities & Logistics

Print Services from CFL

While sourcing a complete range of print through our 'trade only' suppliers

CFL can also supply print from our in-house printers.

These quality printers can print black or colour at high resolution.

Ideal for jobs requiring a

quick turnaround or a small run. We can laser letters onto your letterhead or produce full colour leaflets, brochures etc..

IN-HOUSE

In-house we also have facilities to quillotine these products, collate and bind together. Pages can be laminated or booklets stapled.

While we can offer this in-house service, we have a number of long standing contacts in the printing world who offer a complete range of print, and print related products. These are not necessarily all paper products either.

It could be Clothing, Stress Balls, Golf Balls, anything you like.

KNOWLEDGE

We can offer print to meet all budgets and requirements. If you have a

task for a product to fulfil but don't know what product you require we are able to guide you in the right direction. With our depth of

knowledge and contacts we will be able to supply a product to perform the task you want it to and quite likely more.

For more information or guidance please contact us.

There's Still Time!

Have you still not sorted out your Christmas cards for this year? Don't panic. CFL can offer a fantastic time saving product. Christmas cards designed to meet your specification, personalised to your address list and digitally signed. There needs to be NO work done by you. Addresses can be printed on the card, inserted into envelopes and posted.
